

# Product Safety Information

## Duo-Container BAUER DC, sheet steel, hot-dip galvanised, lockable, various versions. Versions

Please note the technical data of the products!

**Article Numbers:** 461253, 461252

### Safety Instructions:

- Before use, ensure that the Duo-Container complies with the applicable safety regulations.
- Store and handle flammable liquids in accordance with the instructions for use.
- When storing the appliance, ensure that it is stored on stable and secure supports to prevent it from tipping over.
- Ensure adequate ventilation to dissipate vapours.
- Warn against overfilling the containers; observe the maximum fill level.
- Check the shut-off valve regularly for leaks.
- Only move the container with suitable equipment (e.g. pallet truck).
- Observe protective measures when handling hazardous substances.
- Ensure correct handling of the pressure relief valve.
- Recommend the use of personal protective equipment (PPE).
- Ensure safe handling of hazardous substances.
- Carry out regular checks and documentation of corrosion-sensitive materials.
- Ensure suitable conditions for outdoor use.
- Use only for international transport of dangerous liquid goods according to ADR/RID/IMDG Code.
- Wear suitable protective equipment during use.
- Regularly check that the pressure relief valve is functioning properly.
