Article Numbers: 461026, 461025, 461024, 461023, 461022, 461021, 460972, 460971, 460970, 460969, 460968, 460967

Safety Instructions:

- Check the drip tray regularly for leaks.
- Ensure safe handling of water-polluting substances of GHS 1-4.
- Earthing/potential equalisation required for flammable liquids of GHS 1-3, especially in outdoor areas.
- Forklift trucks or pallet trucks should only be used by trained personnel to avoid accidents.
- Regular inspection and logging due to the material's sensitivity to corrosion.
- Use safety equipment such as gloves and safety goggles when handling hazardous substances.
- Store only in the intended area of application and in accordance with the safety instructions.
- Provide safety data sheets for the stored substances and check them regularly.
- Avoid contact with drinking water supply systems when storing water-polluting substances.
- Not suitable for explosive substances.
- Ventilated location for the shelf container to minimise vapours.
- In the event of leaks, take immediate action to minimise hazards.
- The product may only be used by authorised personnel.
- Use a lockable sliding gate and close it properly when not in use.
- Use suitable protective equipment and observe ergonomic guidelines during transport.
