Article Numbers: 461032, 461031, 461030, 461029, 461028, 461027, 460978, 460977, 460976, 460975, 460974, 460973

Safety Instructions:

- Ensure safe storage and handling of water-polluting substances of GHS 1-4, including the use of suitable drip pans and personal protective equipment.
- Only store flammable liquids of GHS 1-3 with an earthing system/potential equalisation in place; special protective measures required in outdoor areas.
- Ensure that the shelving container is regularly maintained and checked for damage and leaks to prevent structural or functional impairment.
- Always keep the sliding gate properly locked to prevent unauthorised access and only open it with suitable keys.
- Only use suitable equipment (e.g. forklift trucks, pallet trucks) for transport to avoid injury or damage.
- Follow the manufacturer's instructions for assembly, use and maintenance; consult qualified personnel, especially for final assembly.
- Product is not suitable for contact with food or for private use.
- Regularly record the sensitivity to corrosion and, if necessary, implement weather protection measures for outdoor storage.
- Health and safety risks due to improper handling indoors and outdoors must be avoided by trained personnel.
- Ensure compliance with GHS safety regulations, including ventilation to prevent hazardous vapour build-up.
- Suitable for the storage of water-polluting substances of GHS 1-4; use for other chemical substances prohibited.
