Please note the technical data of the products!

Article Numbers: 461116, 461115, 461114, 461113, 461112, 461111, 461068, 461067, 461066, 461065, 461064, 461063

Safety Instructions:

- The product is only suitable for the storage of water-polluting substances of GHS classes 1-4.
- Potential equalisation/earthing is required for the storage of flammable liquids of GHS classes 1-3.
- Ensure adequate ventilation, especially indoors.
- Regular inspection for leaks, cracks and mechanical damage.
- Check the drip tray regularly for leaks and containment capacity.
- Only allow trained personnel to operate, maintain and install.
- Avoid accessibility to ignition sources, keep sliding door closed.
- Observe the maximum storage capacity, avoid overloading.
- The shelving container must be checked regularly for corrosion and other safety defects.
- When used outdoors, weather conditions must be taken into account, e.g. corrosion protection.
- Only move the product using suitable means of transport.
- Properly identify and classify hazardous substances, observe safety regulations.
- Only use the products in accordance with the instructions and the specific regulations.
