Please note the technical data of the products!

Article Numbers: 461146, 461145, 461144, 461143, 461142, 461141

Safety Instructions:

- Ensure regular inspection and logging due to the material's sensitivity to corrosion.
- Check the drip tray regularly for leaks, damage and functionality.
- Store water-polluting substances in accordance with the GHS guidelines (GHS 1-4). Only use the product for authorised GHS substances.
- Wear personal protective equipment (PPE) when handling hazardous substances and ensure proper handling to minimise health risks.
- Use technical ventilation and earthing if flammable liquids of GHS categories 1-3 are stored; use earthing and potential equalisation systems in hazardous areas.
- Observe safety measures and fire prevention regulations when handling flammable liquids.
- In the event of contact with harmful substances, take immediate measures to avert danger in order to avoid skin contact and inhalation.
- Product flame retardant, observe fire prevention regulations.
- Suitable for the storage of water-polluting substances of GHS 1-4. Suitable for the storage of flammable liquids of GHS 1-3, use only with appropriate equipment.
- Staff training in handling hazardous substances recommended.
- Only use containers in ventilated areas, especially when storing GHS substances.
- Protect the shelving container from the weather if it is used outdoors.
- Use forklift trucks or pallet trucks for handling; observe the maximum storage capacity and weight.
- Ensure access to the maintenance instructions and update them regularly.
- Accessories such as technical ventilation and earthing/potential equalisation available on request.
