Please note the technical data of the products!

Article Numbers: 461158, 461157, 461156, 461155, 461154, 461153

Safety Instructions:

- Regular inspection and mandatory logging due to the material's susceptibility to corrosion.
- Safety precautions for the storage of hazardous substances in accordance with GHS 1-4, including earthing and technical ventilation for flammable liquids.
- Only use the product outdoors or indoors in accordance with the intended specifications.
- Provide safety information and instructions in understandable language.
- Wear suitable protective equipment when handling hazardous substances.
- Ensure that the drip tray is intact, correctly positioned and regularly checked for leaks.
- Regular inspection for damage or wear.
- Do not overload the product and use it in accordance with the maximum number of pallets.
- Training of personnel in the safe handling and storage of hazardous substances and emergency procedures.
- Only store water-polluting substances in the containers provided in accordance with the regulations.
- Only use flame-retardant materials to minimise the risk of fire.
- Read the operating instructions before use.
- May show signs of rust if not properly maintained.
- Ensure that the container is tightly closed when not in use.
- Use only under the supervision of trained personnel.
- Regular maintenance and inspection of the container to ensure functionality and safety.
- Persons using the shelving container should be familiar with the relevant safety regulations.
