Safety Instructions:

- Take care when handling hazardous substances to avoid skin and respiratory tract irritation.
- Only use the diesel tank indoors and outdoors as intended; ensure that it is protected from improper use.
- Observe the local regulations for the storage and refuelling of diesel.
- Keep children and pets away from the diesel tank; keep it out of reach of unauthorised persons.
- Ensure that the diesel tank is properly earthed to avoid electric shocks.
- Avoid contact of diesel with the skin; clean the affected areas in case of contact.
- Use protective gloves, suitable protective clothing and safety goggles during handling and refuelling.
- Only suitable for handling diesel petrol; other liquids may be hazardous.
- Avoid contact with naked flames or heat-generating appliances.
- Keep the tank and the area around it clean and free of dirt.
- Delivery only to trained personnel.
- Only use the electric pump in dry areas to avoid the risk of electric shock.
- Do not overfill to prevent overflowing and pollution of the environment.
- Store in a well-ventilated place to minimise vapours.
- Protect the container from direct sunlight to avoid overheating.
