Safety Instructions:

- Store securely and protect against unauthorised access.
- Do not load beyond the maximum capacity (60 litres).
- Suitable for the storage of flammable and water-polluting substances.
- Ensure safe handling, especially during transport.
- The surface of the tray is galvanised; avoid direct contact with aggressive chemicals.
- In the event of damage or visible defects, refrain from use immediately and inform the manufacturer.
- Take care when handling flammable liquids of GHS 1-3.
- Regular inspection and logging required due to the material's sensitivity to corrosion.
- Use exclusively for the storage of hazardous substances of GHS 1-4.
- There is a risk of fire and explosion if used improperly.
- Use suitable protective equipment to avoid skin contact and inhalation of vapours.
