Safety Instructions:

- Only store flammable liquids in suitable containers.
- Carry out regular checks for corrosion and damage.
- Ensure that the tray is not overfilled to prevent leakage.
- Observe protective measures when handling hazardous substances in accordance with the safety data sheets.
- Wear suitable protective equipment (gloves, safety goggles) when handling.
- Use only for the safe handling of substances hazardous to water.
- Only use the drip tray for highly flammable liquids of GHS classification 1-3 in accordance with the guidelines.
- The drip tray must always be placed in a stable position to prevent it from tipping over and leaking.
- The drip tray must be cleaned regularly to prevent the accumulation of hazardous substances.
