Safety Instructions:

- Regular inspection and logging of the drip tray due to its sensitivity to corrosion.
- Suitable for the safe storage of flammable liquids (GHS 1-3) and substances hazardous to water (GHS 1-4).
- Do not overload the drip tray, observe the maximum load.
- Wear suitable personal protective equipment for the safe handling of hazardous substances.
- Provide safety information and instructions for use in a language that consumers can understand.
- Caution: Flammable liquids may be released if handled improperly.
- Stow safely: The drip tray should only be filled with authorised substances (GHS 1-3, GHS 1-4).
- Caution: Keep fire and ignition sources away. The drip tray is not fireproof.
- In the event of damage to the tray or paintwork, act immediately and remove the hazardous substances safely.
- Follow the operating instructions: Use only by trained personnel.
- Suitable for the storage and transport of hazardous substances in compliance with the applicable regulations.
