Safety Instructions:

- Regular inspection and logging required due to the material's sensitivity to corrosion.
- Observe safe storage of flammable liquids of GHS 1-3. Store flammable liquids in accordance with the legal requirements.
- Take care when handling water-polluting substances of GHS 1-4.
- Only drive under the drip tray with a suitable pallet truck or forklift. Always ensure safe handling when using forklift trucks.
- Only use the drip tray for its intended purpose.
- Check for damage before use.
- Ensure that the tray is standing on a stable and level surface.
- Only place suitable drums in the drip tray.
- Consider the load on the tray to avoid overloading and possible damage.
- Before cleaning, ensure that the tray is empty and free of harmful residues.
- Check the drip tray regularly for leaks.
