Safety Instructions:

- Sump tray may only be used for the storage of flammable liquids of GHS category 1-3 and substances hazardous to water of GHS 1-4.
- Before use, ensure that the drip tray is on a level surface to prevent it from tipping over.
- Suitable personal protective equipment (PPE) must be worn when handling hazardous substances.
- Check the drip tray regularly for damage, rust and leaks to ensure its integrity and minimise the risk of leaks.
- Ensure proper disposal of hazardous substances in accordance with national regulations.
- Ensure stability and prevent tipping when transporting liquids in order to minimise risks.
- Use of the drip tray only by trained personnel to ensure that all safety protocols are followed.
