

Product Safety Information

Diesel tank system CEMO with UNI-tank, TW-coupling, 230 V electric pump, 50 l/min

Manufacturer/Responsible Person: CEMO GmbH, In den Backenländern 5, 71384 Weinstadt, Deutschland

E-Mail: kontakt@cemo-group.com

Please note the technical data of the products!

Article Numbers: 139457, 139456, 139455

Safety Instructions:

- Risk of suffocation due to improper handling of small parts or hoses.
- Fire hazard due to improper handling of diesel fuels.
- Environmental hazard due to inadequate protection against leakage or spillage of fuel.
- Risk of electric shock if the electric pump is used incorrectly. Ensure that the electric pump connection is properly connected.
- Safety warning: Only allow qualified personnel to operate the appliance.
- Read all safety and operating instructions before use.
- Caution: Use and storage of hazardous substances such as diesel and rapeseed oil methyl ester.
- Only suitable for indoor use, especially in water protection areas.
- A visual leakage indicator is provided; act immediately in the event of a leak.
- Risk of fire and explosion if flammable substances are used improperly. Keep flammable substances away from heat sources.
- Do not damage or kink the hose to avoid leaks.
- Wear personal protective equipment (e.g. gloves and safety goggles) when using the product.
- Handle the diesel tank system with care to avoid leaks and contamination.
- Only use the system in well-ventilated areas, as vapours can be harmful to health.
- Do not overfill the system to avoid overflow and backflow.
- In the event of a leak or leakage, inform the responsible safety service immediately.
