Safety Instructions:

- There is a risk of suffocation from loose parts if handled incorrectly. Lubricants may contain harmful chemicals and cause skin irritation. Wear suitable protective clothing, such as gloves and safety goggles.
- The use of electric pumps harbours the risk of electric shock. All electrical connections must be made properly in accordance with local safety regulations.
- Leaks can cause environmental and health risks. Regularly check the visual leakage indicator and the drip tray.
- The system is only suitable for intended indoor use. Outdoor use can lead to safety and health risks.
- Keep the tank system away from sources of ignition to avoid the risk of fire.
- Only use lubricants recommended by the manufacturer in order not to jeopardise the functionality of the pump system.
