Safety Instructions:

- Caution: Improper handling can cause lubricants to leak. Important: Follow the manufacturer's instructions regarding the use of lubricants. Only use lubricants for the intended purpose and observe the operating temperatures. Ensure that the lubricants are suitable for the respective application. Keep the safety data sheets for the lubricants used to hand.
- Caution: In case of contact with skin or eyes, rinse immediately with plenty of water. Use personal protective equipment (gloves, safety goggles) when handling the lubricants.
- Note: Only operate the electric pump with the intended voltage (230 V). Take care when handling electrical components to avoid electric shocks. Carry out regular maintenance and inspection of the electrical components.
- Safety instructions: Keep appliances away from heat sources and naked flames. Ensure adequate ventilation, especially when filling with hazardous substances.
- Set up securely and fix in place to prevent tipping over. Keep children and unauthorised persons away from the system.
- Only use the product in well-ventilated areas to avoid vapours.
