Article Numbers: 139486, 139484, 139482

Safety Instructions:

- Refuelling with hazardous substances. Observe safety regulations and keep the refuelling process away from ignition sources.
- Only deploy suitable personnel with training in handling hazardous substances.
- Use the product on a stable surface to ensure stability during operation.
- Risk of electric shock: Ensure complete safety of the electrical connection and use the electrical installation in accordance with the applicable safety standards.
- Risk of suffocation: Do not kink or block hoses to ensure unimpeded flow.
- Only use the product outdoors or in well-ventilated areas to avoid the build-up of fuel vapours.
- Ensure the return of hazardous waste in accordance with local regulations.
- The mobile filling station is not suitable for liquids with a pH value below 7.
- Ensure that the electric pump is in perfect condition to prevent leaks and overheating.
- Carry out regular inspections and maintenance of the electrical components to ensure electrical safety.
- Do not use the product in closed rooms as it transports flammable liquids.
- Do not overfill the tank to prevent leakage.
- Store and use the product out of the reach of children.
- Wear protective gloves and goggles when handling the product.
- Attach instructions and safety information clearly visible on the product.
- Observe the instructions for use and safety information when using the product.
