Safety Instructions:

- Safely store and protect against water-polluting substances of GHS categories 1-4.
- Check correct handling and care of the product regularly to prevent corrosive damage, including inspection for damage and rust.
- Ensure that the IBC container can be driven under with a forklift truck or pallet truck and can bear the corresponding load.
- Wear personal protective equipment (PPE) when handling hazardous substances.
- Provide clear instructions and safety information and ensure that the filling stand is properly secured before use.
- Only use trained personnel to use and handle the appliance and observe safety distances to avoid accidents.
