Safety Instructions:

- Ensure that the mobile petrol station is only filled with approved fuels (diesel and AdBlue®) and that all materials and components are suitable for this purpose.
- Correct handling and storage are necessary to minimise the risk of leakage, contamination and fire.
- Avoid contact with skin and eyes, as fuels and chemicals can be harmful to health.
- Always use the automatic nozzle in accordance with the manufacturer's instructions.
- The mobile filling station may only be used in well-ventilated areas to avoid hazardous vapours.
- Regular maintenance and inspections are necessary to ensure the safety of the electric pump.
- Keep the product away from naked flames and sources of sparks; avoid sources of ignition near the petrol station.
- Observe the ADR regulations (transport of dangerous goods), especially during use and transport. Only authorised for transport in accordance with ADR.
- Keep children away from the mobile petrol station.
- When refuelling, appropriate protective measures must be taken against vapours and splashes.
- There is a risk of fire if handled incorrectly. Observe the safety instructions for handling hazardous substances containing harmful substances.
- The mobile petrol station may only be operated by trained personnel.
- Dispose of in accordance with local regulations for hazardous substances.
- Carry out regular inspections (every 2½ years) in accordance with ADR specifications.
