Article Numbers: 461385, 461384

Safety Instructions:

- Keep fire extinguishing equipment close to the IBC station when using flammable liquids.
- Ensure that the station is placed on a stable, level surface to prevent it from tipping over and leaking.
- Avoid direct contact with water-polluting substances.
- Use of suitable personal protective equipment (PPE) when working with hazardous substances.
- Regular maintenance and inspection of the IBC station to detect corrosion and structural weaknesses.
- Liquids may only be stored in the station in accordance with the manufacturer's recommendations.
- Caution: Contains flammable liquids (GHS 1-3).
- Observe the safety requirements for the storage and handling of hazardous substances.
- Ensure that only authorised IBC containers are used.
- Carry out regular inspections of the IBC station to ensure that no leaks occur.
- The IBC station is designed for commercial use only.
- Find out about the appropriate disposal of the stored hazardous substances.
