Safety Instructions:

- Suitable safety precautions must be taken when operating the electric pump in order to minimise the risk of electric shock. Only observe the relevant electrical safety precautions.
- The mobile filling station should only be used by trained personnel to ensure the safe handling of hazardous substances such as diesel and AdBlue®. It may only be used by trained personnel.
- The petrol station may only be operated and maintained in accordance with the applicable ADR regulations and the manufacturer's instructions. Carry out regular inspections in accordance with ADR regulations. Ensure that storage and transport are carried out in accordance with ADR regulations.
- The petrol station must be checked regularly for leaks and proper functioning in order to avoid leaks or other hazards. Store the product in a cool, dry place, away from direct sunlight.
- Diesel and AdBlue® must be stored and transported in accordance with the relevant dangerous goods regulations.
- Use of protective equipment (e.g. gloves, eye protection) during refuelling and maintenance of the mobile filling station is recommended. Handle diesel and AdBlue® with care to avoid skin and eye irritation. Avoid contact with skin, eyes and clothing when handling diesel and AdBlue®.
- Improper use can result in health hazards and environmental damage, so clear instructions must be provided on how to deal with emergencies.
- Beware of the risk of suffocation from liquids and chemicals.
- Do not use the mobile refuelling station in the vicinity of naked flames or highly flammable materials. Keep the area free of ignition sources during refuelling.
- The electric pump may only be installed and maintained by qualified personnel.
- The mobile petrol station may only be used for the fuels intended for it.
- Never hold the automatic nozzle manually or place it in the tank while the pump is running.
- Safe use only for the intended purpose and in accordance with the attached instructions.
