Safety Instructions:

- Protect from contact with skin and eyes.
- Only use suitable containers and equipment for filling to avoid leaks.
- Only use the tank system for the intended application.
- If the leakage indicator is activated, take the tank system out of operation and inform specialised personnel.
- Install the tank system on a stable, horizontal surface to avoid falling accidents.
- Electrical installation must be carried out by qualified personnel to avoid the risk of fire.
- Avoid unsupervised refuelling and keep children and unauthorised persons away.
- Read the operating instructions carefully before each use and observe them.
- Install the tank in a well-ventilated place.
- When refuelling, check for leaks and rectify them immediately.
- Do not operate the electric pump without supervision.
- Contact the manufacturer immediately in the event of a technical defect.
- Do not overfill the tank to avoid leaks.
- Use only for storage and refuelling of AdBlue®.
- Installation by qualified personnel only.
