Safety Instructions:

- Only store authorised hazardous substances in accordance with the applicable regulations. Only use for the storage of flammable liquids of GHS categories 1-3 and water-polluting substances of GHS categories 1-4.
- Keep the depot clean and free of flammable materials. Keep flammable materials away from sources of ignition.
- Regularly check the ventilation slots for blockages. Ensure that the hazardous materials depot is set up in a well-ventilated location to avoid accumulations of hazardous vapours.
- Use personal protective equipment (PPE) when handling hazardous substances. Use suitable personal protective equipment (PPE) when handling the stored hazardous substances.
- Ensure that the depot lid is securely closed when the depot is not in use. Only lock the depot when it is not in use to prevent unauthorised access.
- Follow the instructions for labelling hazardous substances. Affix the required safety labelling and instructions in clearly visible places.
- Keep a fire extinguisher close to the depot.
- Train employees in the safe handling of hazardous substances. The depot may only be opened and used by authorised personnel.
- Inform the relevant authorities of any safety problems that may arise.
- Regular inspection of the depot for signs of leaks or damage.
