Safety Instructions:

- If used improperly, harmful hazardous substances may escape and use should be discontinued immediately. Then consult a specialist.
- Read the operating instructions before use and follow the safety instructions.
- Only use the drip tray for its intended use with chemical substances in accordance with the product information.
- Wear protective equipment when working with hazardous substances.
- Check the drip tray regularly for cracks, damage and wear. If damage occurs, discontinue use and contact the manufacturer.
- Suitable for the storage of water-polluting substances of GHS 1-4. Observe the specific regulations for handling hazardous substances.
- Safe storage and transport of hazardous substances in accordance with the applicable regulations.
- Make sure that the drip tray is stable and not overloaded to prevent it from tipping over.
- Make sure that no aggressive chemicals are used that could damage the material of the drip tray.
- Protect the drip tray from excessive pressure or physical stress.
