Safety Instructions:

- Caution: When refuelling appliances with petrol and petrol mixtures, ensure that there are no ignition sources in the vicinity.
- Observe protective measures against static electricity, especially when using the electrically conductive discharge hose.
- Do not exceed the maximum flow rate of 25 litres per minute.
- Ensure periodic inspection of the mobile petrol station after 2½ years in accordance with ADR.
- Approved for transport in accordance with ADR; however, check regularly for damage and correct functionality.
- Observe the labelling for explosive substances in connection with the handling of fuels.
- The product is only approved for commercial use; ensure that no unauthorised persons have access to the filling station.
