Article Numbers: 460074, 460073, 460072, 460071, 460064, 460063, 460062, 460061

Safety Instructions:

- Take care when handling flammable liquids as there is a risk of fire.
- Use suitable personal protective equipment (gloves, safety goggles) when handling hazardous substances or flammable liquids.
- The drip tray may only be used for approved liquids (2-stroke mixture, petrol, diesel, used oil, heating oil).
- Improper handling of the tray can lead to environmental pollution.
- Protect the tray from mechanical damage.
- Avoid high temperatures to prevent material damage.
- Caution! Store flammable liquids. Only suitable for handling substances of GHS 1-3.
- Regular inspection for corrosion required.
- Do not remove grating; ensures safe storage.
- Ensure that storage conditions fulfil the safety requirements.
- Only move with suitable equipment (pallet truck, forklift).
- Have safety data sheets ready for all stored substances.
- Not suitable for food storage.
- Ensure that the drip tray is regularly checked for leaks.
- Only use in well ventilated areas to avoid the build-up of vapours.
- Do not overload the drip tray to ensure safe handling.
- The product must be disposed of properly in accordance with local regulations.
- Used storage containers should be handled in accordance with safety regulations.
- Ensure safe handling of harmful substances.
- Only use and transport by trained personnel.
- Only use for the storage of authorised liquids in accordance with the specifications.
- Check for visible damage before use.
- Regular inspection and logging of the condition of the drip tray due to corrosion.
- Categorisation of storage materials according to GHS classification (flammable and water-polluting substances).
