Article Numbers: 460080, 460079, 460070, 460069

Safety Instructions:

- Contains harmful and flammable liquids. For professional use only. Use only in well ventilated areas. Wear suitable protective clothing, including gloves and eye protection, when handling.
- Regular inspection and maintenance for corrosion and damage required. Check the drip tray regularly for leaks and stability. The maximum filling quantity must not be exceeded and must be emptied and cleaned in accordance with the applicable regulations.
- Safe handling of hazardous substances requires training for personnel. Use only permitted by trained persons.
- Keep a safe distance from ignition sources. Product must be protected from extreme temperatures and direct sunlight. Store flammable liquids safely in accordance with GHS 1-3 and observe handling instructions. In the event of a leak of hazardous substances, inform the competent authority immediately.
- Hazardous substances may only be stored in the containers provided for this purpose. Do not place hazardous waste or chemicals in the drip tray without prior authorisation.
- Before use, ensure that the drip tray is placed on a stable, level surface.
- In case of fire, do not extinguish with water, but use suitable extinguishing agents.
- Take care when moving IBC containers, risk of injury due to improper handling.
- Observe the specific storage conditions for water-polluting substances.
