Article Numbers: 329972, 329823, 337462, 177851

Safety Instructions:

- Choking hazard due to small parts that may come loose; product not suitable for children under 3 years of age.
- Risk of electric shock due to improper use of the USB connections. Ensure that all electrical connections are dry and that the cable and USB connection are undamaged.
- Risk of overheating during prolonged use without adequate ventilation.
- Use of the device in road traffic is not recommended to avoid distraction.
- Avoid excessive volume levels to prevent hearing damage; set the volume to a comfortable level before use.
- Do not use the headset when operating machinery or vehicles.
- To ensure safety, only use the headset for its intended purpose.
- Protect the headset from moisture and extreme temperatures. The product must not be used near water or other liquids.
- Keep all cables out of the reach of children.
- Users should avoid using the headset during intense physical activity to prevent injury.
- Avoid using the headset at a high volume for long periods of time to prevent hearing damage.
- Remove the headset if you feel uncomfortable pressure or pain in your ears to avoid injury.
- Store the product in a dry and cool place to prevent damage.
