Article Numbers: 157556, 157555

Safety Instructions:

- Before use, check that the maximum load of 150 kg is not exceeded and that suitable safety precautions are taken when lifting heavy loads.
- Ensure that the workshop trolley is placed on a stable, level surface to prevent it from tipping over and that it does not roll without parking brakes.
- Manual height adjustment should only be carried out by trained personnel, as there is a risk of injury if used incorrectly.
- Ensure that the castors are not used on uneven or unstable surfaces.
- Electrical devices placed on the trolley must comply with safety standards to avoid short circuits and fire hazards.
- Risk of suffocation due to improper use if the height adjustment is not installed correctly.
- Include safety instructions for proper use of the height adjustment.
- Carry out regular inspections of the castors and brakes to ensure safe use.
