Safety Instructions:

- Not suitable for children under 3 years due to choking hazard from possible small parts. | Product not suitable for children as they may be attracted by the shape. | Product must not be used within reach of children unless expressly labelled as childproof. | Store out of reach of children to avoid choking hazard from small parts.
- Caution: Rounded edges can cause injuries; sharp edges are present if used incorrectly - take care when attaching and removing; work with sharp objects (e.g. pins) - take care when using
- Avoid using the product in rooms with open flames or extreme temperatures. | Do not place directly near heat sources to avoid the risk of fire. | Flame retardant (fire protection class B) - Keep away from fire | The product is flame retardant, but it should be kept away from open flames and extreme temperatures. | In the event of a fire, suitable extinguishing agents should be used, as the product is flame retardant, but there may still be a risk of fire. | Flame retardant - observe fire protection class B
- Recommend regular inspection of fixings and structural stability to minimise the risk of falling. | Regular inspection of stability and fixings to prevent falling. | Make sure the pinboard is securely fixed to the wall to minimise the risk of falling.
- Ensure that installation is carried out in accordance with the enclosed instructions to avoid injury. | When installing and using, follow the manufacturer's instructions. | When installing on a grid ceiling or similar, suitable brackets should be used to ensure safety.
- Do not use the product as a trampoline or play equipment.
- Intended for use in enclosed, well ventilated areas | The product must be used in a well ventilated area to avoid possible quality degradation due to environmental influences.
- Only use for the intended use indoors
- Avoid direct sunlight on the acoustic pinboard to prevent colour changes; avoid use in direct sunlight.
- Check regularly for damage and replace if necessary
- Ensure environmentally friendly disposal of the product at the end of its service life.
- Only use suitable materials for attaching notes to avoid damaging the surface; do not use sharp objects when attaching notes to the pinboard
