Article Numbers: 141714, 141713

Safety Instructions:

- Make sure to check the compatibility of disinfectants in a less visible place.
- Observe the maximum load capacity of 110 kg.
- Designed for prolonged sitting of up to 8 hours.
- Position the chair so that the correct backrest height can be set for the user's height.
- Use safety double castors to prevent the chair from tipping over.
- Only use the chair for its intended purpose and observe the recommended maximum load of 110 kg.
- The height should be adjusted to suit your height in order to avoid back problems.
- Make sure that the chair stands securely on hard floors and that the castors function properly.
- Be careful when adjusting the synchronised mechanism to prevent accidental injury.
