Safety Instructions:

- Take care not to exceed the recommended number of chairs when stacking to avoid the risk of suffocation.
- The surfaces are resistant to disinfectants; check compatibility on an inconspicuous area.
- Make sure that the chairs do not have a rough base and can slip easily; care must be taken when moving them.
- The armrests are robust, but improper use can lead to injuries.
- The chair is designed for a weight of up to 110 kg, excessive loads can lead to a risk of breakage.
- Risk of suffocation due to improper use of small parts and accessories.
- Risk of electric shock due to improper use of electrically operated parts.
- Risk of slipping due to insufficient adhesion of the underlay during intensive use or improper storage.
