Please note the technical data of the products!

Article Numbers: 147137, 147136, 147135, 147134

Safety Instructions:

- Choking hazard from small or improperly used parts and from leaning the chair back. Not suitable for children under 3 years of age.
- Risk of falling and injury due to improper use, seat height adjustment or instability on soft, uneven or slippery floors. The chair should only be used on stable, level surfaces.
- Note maximum load capacity: 60 kg. Minimum weight: 25 kg.
- The chair is suitable for children aged 5 to 13 years in accordance with EN 1729. Ensure that the seat height is regulated by an adult to ensure a safe sitting position and blood circulation.
- Never misuse the chair or use it for more than 4 hours a day.
- Regularly check the safety castors and the star base for functionality and wear. Use double safety castors to prevent the chair from rolling away unintentionally.
