Article Numbers: 147141, 147140, 147138

Safety Instructions:

- Risk of suffocation due to possible improper use of the height-adjustable mechanism and moving parts.
- Risk of falling due to unused seat effects, improper sitting and when getting up or down.
- Risk of injury due to moving parts and lack of stability in the event of incorrect adjustment and unforeseeable changes in height.
- Not suitable for children under three years of age due to choking hazard from small parts.
- Use only recommended under adult supervision, especially when adjusting the height.
- Make sure that the stool is stable when used by children to prevent it from tipping over.
- Ensure that the stool is used on a stable and level surface to avoid accidents.
- Read the operating instructions carefully before use and follow the safety and operating instructions.
- The movable TPU tyre element offers a swinging motion; use this feature carefully to minimise the risk of injury.
