Safety Instructions:

- Ensure that the monitor arm is properly mounted and secured to the table to prevent tipping, falling and possible injury.
- Only use the monitor arm for the specified monitor sizes and weights: maximum 39 inches wide and 8 kg to avoid stability problems.
- The maximum load of 8 kg must not be exceeded to ensure safe use.
- Regularly check and tighten all fastenings and adjustments and check the gas spring for proper functioning to prevent stability, wear and injuries.
- Keep the monitor arm away from excessive and sudden shocks and ensure that all cables are securely routed to prevent risks of damage and tripping hazards.
- Keep the product out of the reach of children as it is not designed as a toy and could cause injury if swivelled or turned.
- If you are unsure, consult a specialist for safe installation.
- Users should be instructed not to adjust the monitor arm with excessive force to prevent damage.
- The product must be installed and used in accordance with the enclosed instructions.
