Safety Instructions:

- Not suitable for children under 3 years due to small parts.
- Maximum weight of the monitor per arm: 8 kg - Avoid overloading.
- Observe the required height of table clamps and cable routing to ensure stability.
- Regularly adjust the height and tilt of the monitors to avoid ergonomic misadjustments.
- Ensure that it is securely mounted on the edge of the table to prevent it from tipping over.
- Ensure that the monitor arm is mounted correctly and stably to prevent injuries from falling over.
- The gas spring function must not be blocked or modified in order to avoid the risk of injury.
- Tighten the table clamps firmly to minimise the risk of slipping.
- Use the integrated cable management to avoid tripping hazards.
- Install and use the product in accordance with the instructions in the operating instructions.
- Regularly check the stability of the holding device to prevent unintentional movements or breakage.
- Take care when using the gas spring to avoid injuries caused by sudden movements.
- Use the table clamps to ensure that the installation is above the recommended table thickness to ensure proper fastening.
- The product is certified in accordance with ISO 9241-5:1998 and should be used in accordance with ergonomic requirements.
