Safety Instructions:

- Only use the ladder on firm, level ground.
- Make sure that the ladder is properly locked before using it.
- Do not carry any heavy or swinging objects when working on the ladder.
- Avoid overloading the ladder beyond the maximum permissible load.
- Do not use the ladder in the vicinity of electrical cables.
- Do not leave the ladder unattended when children are nearby.
- Ensure that the safety caps on the crossbars are intact and prevent them from slipping.
- Observe the instructions for use and safety information supplied with the product.
