Please note the technical data of the products!

Article Numbers: 157702, 157701, 157700, 157699, 157698, 157697

Safety Instructions:

- Only use the ladder on firm, level and stable ground.
- Note maximum working height: 2900 mm or 4800 mm, depending on model.
- Check the ladder regularly for damage and signs of wear and tear and do not use if there are any signs of damage.
- Observe the maximum load capacity and step loads to avoid overloading.
- Properly check and install non-slip treads and foot plugs to prevent slipping.
- Only use in suitable weather conditions, not in wet, slippery or strong winds.
- Follow the user manual and safety instructions; only install and use in accordance with the manufacturer's instructions.
- Children may only use the ladder under adult supervision.
- Wear suitable safety equipment, such as non-slip shoes, when working at height.
- Secure the ladder against tipping or falling over, especially on uneven ground or in strong winds.
- Keep the conductors away from electrical cables.
- Take care not to lean forwards or reach beyond the upper end when using.
- Do not hold any tools or materials in your hands during use.
