Article Numbers: 139865, 139864, 139863, 139862, 139861, 139860, 139859

Safety Instructions:

- Risk of electric shock if the electric pump is handled incorrectly. Keep electrical connections dry and insulated. Keep the electric pump away from children.
- Do not use the electric pump in potentially explosive atmospheres, near sources of ignition or naked flames. Take care when handling flammable liquids (biodiesel and diesel).
- Pump performance may be impaired if the suction hose is not positioned correctly. Ensure that hoses and valves are connected correctly.
- Regularly check seals and hoses for leaks. Take precautions against the risk of suffocation due to pinched hoses.
- Use the electric pump in accordance with the application guidelines and only with suitable media such as biodiesel and diesel. Take care when using other media.
- Disconnect the power supply before carrying out maintenance work and ensure that the pump is operated on a stable surface. Wear protective clothing to avoid skin contact with fuels.
- Do not operate the product at extreme temperatures, under water or near heat sources. Protect from frost.
- Pump should be operated with the intended voltage (12V). Observe the instructions for 230V use.
- Improper use may result in leaks or damage. Read the operating instructions carefully and follow them.
- Do not leave the pump unattended during operation. Do not bring the electric pump into contact with food.
