Safety Instructions:

- Read the operating instructions and safety information and keep them with the product to ensure safe use.
- Splash water and chemical substances can damage skin and eyes.
- Do not use near sources of ignition as the liquid has a flash point above 55°C.
- Do not use the pump to pump liquids with a flash point below 55°C.
- The pump must not be operated without the prescribed connections.
- The pump must be securely positioned during operation to prevent it from tipping over.
- Make sure you use the on/off switch correctly to avoid a short circuit.
- The pump is not suitable for handling food.
- Protect the pump from frost and use suitable antifreeze.
- Keep electrical connections dry and avoid contact with water to prevent the risk of electric shock.
- Risk of suffocation due to improper handling of the plastic diaphragm pump.
- Risk of electric shock if used improperly with electrical components.
- Fire hazard when used with liquids with a high flash point.
