Safety Instructions:

- Risk of suffocation due to improper use by children; the standing aid is not suitable for children and should not be used in the vicinity of children or without supervision.
- Avoid the risk of slipping; the standing aid may only be used on firm, stable and non-slip surfaces.
- Use the TÜV-approved safety gas spring correctly and ensure that all parts are correctly fitted before use.
- Do not exceed the maximum load capacity of 110 kg.
- Keep the product away from fire and heat sources.
- Risk of falling if the height adjustment is not correct or if used incorrectly; the seat height can be adjusted between 570 and 850 mm, ensure that the gas spring is working correctly.
- Avoid tipping over by paying attention to the tilting edge and operating the standing aid carefully.
- The ergonomic shape of the saddle can lead to muscle tension if used incorrectly.
- Observe the operating instructions to ensure longer functionality.
