### Safety Instructions:

- Maximum load: 110 kg. Do not exceed the maximum load to avoid damage.
- Sitting time should be limited to a maximum of 8 hours per day to prevent health problems.
- Only use the load-dependent braked safety castors on carpeted floors. Special castors are required for other floors.
- Ensure the correct height adjustment to ensure an ergonomic sitting position. Adjust the seat height before use.
- Make sure that the armrests are firmly attached to avoid tension and check their stability regularly.
- The product must be installed correctly to prevent accidents.
- Store the product out of the reach of children to avoid injury.
- Make sure that the chair is standing on a stable surface. Regularly check the stability of the castors and accessories.
- Use the product in accordance with its intended use to avoid risks.
- All accessories and castors should be checked regularly for wear.
