Safety Instructions:

- Choking hazard due to improper use of the product and small parts that are not suitable for children. Keep the light out of the reach of children and pets.
- Risk of electric shock due to improper installation or replacement of the light source. Bulbs should only be replaced by trained specialists. The product is safe to use if it is installed by qualified personnel. Before replacing the light source, ensure that the luminaire is disconnected from the power supply. Follow the instructions for installing the light source by authorised service personnel.
- Provide safety information in easy-to-understand language and clear operating instructions to ensure safe operation.
- Do not use the light near water sources and protect it from water and moisture. Do not use in damp environments or in direct contact with water. Do not install the light near heat sources or liquids.
- Activate the integrated presence sensor before use.
- Do not use the light in areas where it could fall or be knocked over.
