Safety Instructions:

- Avoid loads in excess of 110 kg to prevent damage and injury.
- Only have the height adjustment carried out by qualified persons.
- Ensure that the armrests are correctly adjusted to avoid tension.
- The recommended maximum sitting time is 8 hours at a time.
- Improper use can lead to back and neck strain.
- Secure the locking mechanism of the synchronised mechanism to prevent accidents.
- Make sure that the chair is correctly adjusted to avoid back problems.
- Avoid excessive movements while seated to prevent tipping over.
- Protect the chair from moisture and sharp objects to prevent damage.
- Children should only use the chair under supervision and keep small parts away to avoid the risk of falling and choking.
- Only use the chair on stable and level surfaces.
- Regular care of the cover extends the life of the chair.
- Avoid use on rough surfaces or with aggressive agents.
- Check the double castors regularly to prevent accidental tipping over.
- Follow the instructions for an ergonomic sitting position.
