Safety Instructions:

- Do not exceed the maximum load of 140 kg. Special note on the maximum weight (total load capacity: 140 kg).
- Set up the shelf in a stable position to prevent it from tipping over. Ensure that the shelf is standing on a level surface.
- Check shelving regularly for stability and damage.
- No excessive weight shifting on the upper shelves.
- Not suitable for children, avoid possible crushing and injuries.
- Provide safety information in accordance with the Product Safety Regulation. Point out safety risks in the packaging and description of the product.
- The product may only be supplied with proper instructions for assembly and use.
- Include detailed information on safe use and disposal, especially if the materials require recycling.
- Inform customers about the insensitivity to oils, acids and alkalis.
