Safety Instructions:

- Observe the instructions for the safe storage of hazardous substances.
- Only use containers suitable for the storage of water-polluting and flammable liquids.
- Regularly inspect the shelf and the drip tray for damage, cracks or corrosion.
- Wear suitable protective equipment, such as gloves and protective clothing, when handling chemical substances.
- Protect the shelf from direct sunlight and moisture.
- Have emergency measures and safety data sheets ready for the stored substances.
- Follow the enclosed safety instructions and warnings as well as local regulations for storage and disposal.
- In the event of leaks, take immediate measures to limit the damage; use a 30 litre drip tray for proper disposal of leaks.
- Ensure that only water-hazardous and flammable liquids in GHS categories 1-4 or 1-3 are stored on this shelf.
- Ensure that the shelf is stable and correctly installed.
