Article Numbers: 461512, 461511, 461510, 461509

Safety Instructions:

- Ensure safe storage of water-polluting and flammable liquids in accordance with regulations.
- Regular inspection of the drip tray for corrosion, leaks and damage is required.
- Steel drip tray has a volume of 40 litres: In the event of overfilling, a proper disposal and emptying process must be followed.
- Observe protective measures against impacts and mechanical influences during transport and use.
- Only use the product in well-ventilated areas to avoid the risk of fire.
- Liquids must be sealed in suitable containers.
- Check the drip tray for leaking liquids and empty if necessary.
- Observe safety data sheets (SDS) when handling hazardous substances.
- Product not suitable for the storage of food substances.
- Use only for the storage of flammable or hazardous substances according to GHS categories 1-4.
- Clean only with suitable, non-corrosive agents.
- Check the shelf regularly for damage and keep it in an upright position to prevent it from tipping over.
- Store high-risk substances separately from other materials.
- Wear protective clothing and equipment when handling hazardous substances.
- Shelf should be made of corrosion-resistant material, regular inspection recommended.
