Article Numbers: 461524, 461523, 461522, 461521

Safety Instructions:

- Observe safe storage of hazardous substances.
- Ensure that all safety precautions have been taken before use.
- Follow procedures for the disposal of liquids hazardous to water.
- Check the load-bearing capacity of the shelves to avoid accidents.
- If the shelf is broken or damaged, contact the manufacturer.
- Observe safety regulations for the storage of liquids hazardous to water.
- Regularly check and record the material's susceptibility to corrosion.
- Check the drip tray regularly for leaks and insert before storage.
- Ensure protective measures against hazards from flammable and harmful substances.
- Safe storage of liquids hazardous to water of GHS categories 1-4.
- Observe fire protection measures when storing flammable liquids of GHS categories 1-3.
- Use suitable protective equipment when handling hazardous substances.
- Store the product away from heat sources and open flames.
- Replace damaged parts immediately to ensure safety.
- Use only for water-polluting and flammable liquids of GHS categories 1-4 and 1-3.
