Please note the technical data of the products!

Article Numbers: 461532, 461531, 461530, 461529

Safety Instructions:

- Ensure proper storage of liquids hazardous to water and observe instructions on safe storage conditions.
- Follow the manufacturer's instructions for add-on shelving, especially for the RWW 1064 model.
- Before using a drip tray, ensure installation and functionality; check regularly for leaks and damage.
- Avoid overfilling drip pans to prevent overflow and contamination.
- Keep shelves free of unnecessary materials to minimise the risk of falling; ensure stability and correct assembly to prevent tipping.
- Carry out regular inspections of shelving for damage, rust and risk of corrosion; inspection and documentation are required.
- Avoid contact with chemical and hazardous substances without suitable personal protective equipment.
- Ensure that employees are trained in the handling of hazardous substances and the safe use of shelving.
- In the event of damage or leaks in the tray bases, take immediate measures to limit the damage.
- Use protective clothing, including gloves and eye protection, when handling hazardous materials.
- Do not allow the quantity of stored liquids to exceed the permissible capacity in order to minimise safety risks.
- Ensure accessibility to escape routes and other equipment.
