Please note the technical data of the products!

Article Numbers: 461549, 461548, 461547, 461546

Safety Instructions:

- Only suitable for the storage of water-polluting and aggressive chemicals. Storage only for water-polluting liquids of GHS categories 1-4 and aggressive chemicals.
- Check the drip tray regularly for leaks, damage and accumulation of liquids.
- Careful cleaning required to avoid residues of hazardous substances.
- Storage in well ventilated areas recommended.
- Do not load the shelves beyond the permissible load. Observe the maximum load of the grating shelves.
- Regularly check the susceptibility of the material to corrosion.
- Provide safety data sheets for all stored substances.
- Wear protective gloves and safety goggles during use. Wear suitable protective equipment when handling hazardous chemicals.
- Avoid contact with water-polluting liquids.
- Do not overload the shelf to ensure stability. Ensure that the shelf is stored stably to prevent it from tipping over.
- Ensure that the shelf is only used for the intended chemical substances.
- Avoid using materials that are not compatible with the shelf to prevent chemical reactions.
- Before use, ensure that the shelf is correctly assembled and securely anchored.
- Place and secure the shelf out of the reach of children.
- Wear protective clothing and equipment when transferring or loading hazardous substances.
