Please note the technical data of the products!

Article Numbers: 461544, 461543, 461542, 461541, 461540, 461539, 461538, 461537

Safety Instructions:

- Suitable for the storage of water-polluting liquids of GHS categories 1-4. Only use the shelf for water-polluting and flammable liquids.
- Avoid contact with harmful hazardous substances and wear suitable personal protective equipment (safety goggles, gloves, etc.) when handling hazardous substances.
- Regularly check the material for susceptibility to corrosion and check the drip tray for leaks, damage and soiling.
- Only store approved materials and substances properly and label them completely to avoid chemical reactions or leaks.
- Make the shelving accessible for pallet trucks and forklift trucks to ensure safe handling. Take care not to jeopardise the stability of the shelving.
- Ensure that the shelf is stable and that there is no risk of it tipping over. Protect against overloading to ensure stability.
- Train all employees in the safe handling of hazardous substances and in emergency management.
- Ensure that all locally applicable regulations for the storage of hazardous substances are followed and that safety data sheets (SDS) are available.
- Immediately remedy any loss of liquid to avoid environmental damage.
- Carry out regular inspections of the storage units and the drip tray to prevent overflow or leaks.
